

Any stage, any data, a unique and clear view of your company

Acting at any stage of the data life-cycle to give you a unique and clear view of your company

We believe that the strength of Virtual Cockpit is its **team**. We are all **passionate** and each one of us brings his own expertise to provide the most **complete** work for your company. That is what enables us to have a **new** and **fresh** view on our work.

We are always moving, to follow your company's evolution. We are permanently **reassessing** ourselves to make sure we stay **innovative** and **modern**.

Our small structure enables us to be **flexible** and to **adapt** easily to your needs. The basis of our work is a good **collaboration** with your team as we know the human part of a project is what makes the difference.

We want to provide the most valuable work for your company, and believe we can do so thanks to our values.

MANAGEMENT COCKPIT & WAR ROOM

Virtual Cockpit, Aldgate Tower

MANAGEMENT COCKPIT

Making meetings simpler with an immediate understanding of your key figures.

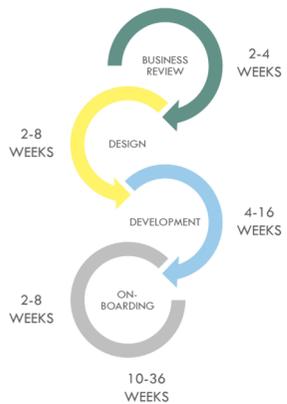

A CLEAR & SIMPLE SOLUTION

The Management Cockpit is a dedicated place for meetings, where **dashboards** are displayed on each wall of the room, providing specific information from each department of your company.

PROVIDING SIGNIFICANT BENEFITS

- A **coherent** comprehension and identification of data, resolving information problems within the board
- An **overall view** of your strategic position and operating performance, improving your **efficiency** in decision-making

OUR 4-STAGE SETTING-UP OF YOUR COMMAND CENTER

1. **Audit** of your company by our experts in order to understand your needs and your company's **entire ecosystem**
2. **Prototyping** and data consolidation, IT and hardware
3. **Software development** using our IT and BI expertise
4. We make sure our solution meets your needs, and make you as self-sufficient as you wish to be with it

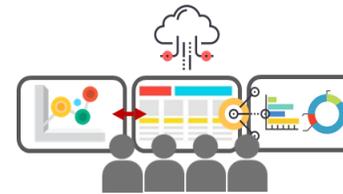

— SPECIFIC MANAGEMENT COCKPITS —

COMMUNITY MANAGEMENT

We are aware that community management requires a **constant attention** and **immediate reactions**, as the data flow is particularly fast. A dedicated management cockpit enables you to easily understand and follow-up the evolution of your company's digital activity.

VIDEO WALL

To have an easy and everyday quick view of your company's key figures, we can also develop a video wall in a common space that you can easily consult and interact with **at any moment**. You can then monitor the **real-time evolution** of your business, with a very simple and instinctive interface.

WAR ROOM

Giving you a clear view of a complex environment in a crisis situation.

The War Room is a space, implemented quickly for a short period of time, to help you deal with a **crisis**. It associates built-in **high-tech tools** (blackboard collaboration, visual reporting etc.) with classic features.

This room is inspired from the ones set up by politicians during wars to gather all the **strategic stakeholders**. They could consequently take fast informed decisions, having an overall view of the context and their current situation.

We can also provide a War Room day-**training**, to develop capacity and coordination in your team. This day consists in dealing with a crisis situation we have made-up for your team, thanks to efficient data management and team communication.
